

Professional. Responsive. Dedicated.

The Difference is Attitude

Interstate Network Systems is your complete source for LAN/WAN, copper and fiber optic cabling, network electronics and telephone systems. Our highly trained technicians are dedicated to delivering the job on-time with the highest level of skill and service in accordance with EIA/TIA and B.I.C.S.I. standards. We're certified by AVAYA technologies, AMP, Inc. and others to provide the caliber of workmanship, performance and quality products that our customers expect.

Our experienced, knowledgeable professionals are responsive to your project needs and are dedicated to delivering the job on-time and with the highest level of skill and service.

"Your people are professional, they respond quickly and their work is excellent. Your group continues to be very flexible in taking care of my projects regardless of size or scope. At this time, Interstate Network Systems is my only choice for any future projects."

MIS Director, AstraZeneca.

Network Systems

Interstate Network Systems provides high quality communications infrastructures to commercial, pharmaceutical, health care, data processing, institutional, financial services, bio-technology and manufacturing clients.

Our network systems projects include:

AstraZeneca: installed a complete network system for 1,500 voice and data stations, and 7,500 feet of fiber optic cable and 500,000 linear feet of category 5 cable.

Fidelity Investments: installed 575 fiber optic connectors, 350 copper category 5 stations, extensive category 5 trunking, voice trunking and T1 circuits.

Assumption College: installed a network system for two dormitory buildings.

GenRad: installed over 1,500 workstations, 500 fiber optic connections and extensive closet interconnects for this three building campus.

Arqule: installed all the communications cabling in this new world headquarters.

Brandeis University: relocated entire campus underground fiber optic and copper outside plant cabling infrastructure.

The following is a list of Interstate Network Systems certifications:

- > AVAYA.....Valued Added Reseller
- > AMP, Inc.....Certified ND & I
- > Molex (Mod Tap).....Certified Installer
- > Hubbell.....Certified Installer
