HepaClean 2000
Filtered Ionized Air Parts Cleaning System

The HEPAClean 2000 is a closed loop parts cleaning system that employs three proven cleaning tools—static neutralization, high velocity compressed air and advanced HEPA filtration—in a single unit that occupies less than three square feet of valuable bench space. It is the only self-contained cleaning system available that allows you to clean parts in a clean room with little risk of contaminating the surrounding environment.

Features:
- HEPA filter (99.99% efficient at 0.3 microns)
- Multi-layered pre-filter
- Direct drive high velocity air blower with a balanced impeller for quiet operation
- Lighted rocker switch
- Fluorescent interior work light
- Perforated stainless steel work surface
- Motion sensor for automatic operation
- Solenoid valve for automatic operation
