Tevron Sponsors Citrix iForum™ Global 06

NASHUA, NH., October 22, 2006 - Tevron invites you to visit us at <u>Citrix iForum™ Global 06, Oct. 22-24</u>, in Orlando, Florida. Tevron will be located in booth #302 at the Walt Disney World Dolphin Resort and will be showcasing its entire suite of monitoring and testing solutions including, CitraTest APM®, CitraTest VU®, and CitraTest®. Tevron's testing and monitoring solutions are the only solutions with support for every enterprise application including Citrix, Terminal Services and VMWare hosted applications. Through the use of Tevron's powerful solutions, the IT focus now shifts from technology and internal systems, to end-users/customers and achieving business goals.

Citrix iForum Global 06 will show attendees how to enable transformative business innovations in their organizations, regardless of which application delivery method is used, and provides the best access experience for everyone. Users get fast, easy, secure access to any resource they need, including applications, Web sites, data, online meetings, e-mail, voice mail, even Web-based assistance. IT administrators can better monitor access and performance, safeguard data, control who gets access to what and how, and cost-effectively run IT in alignment with company objectives. Business managers get an IT environment that is aligned with the business, increased IT efficiency and security overall, and improved business agility. For more information on Citrix iForum Global 06 or to register for the event, visit http://www.citrixiforum.com.

About CitraTest APM®
CitraTest APM® is designed to meet the needs of the Application Performance Management space. This solution supports every enterprise application and allows IT organizations to actively monitor the End-To-End User Experience. Through the use of CitraTest APM, scripts are created that can replicate any user transaction. These scripts are then deployed to various Points of Presence across the enterprise via the Web Console. Through the use of the Web Console, IT Managers can schedule the execution times for these transactions across the enterprise and proactively measure the overall performance & SLAs of every application. With these abilities, companies can monitor mission-critical IT system performance and resolve issues quickly, improve overall productivity and reduce IT expenses. For more product specific details, please refer to http://www.tevron.com/citratest-apm.asp.

About CitraTest VU®
CitraTest VU® is designed to meet the need for Load Testing and Capacity Planning for all Citrix and Terminal Services hosted applications. Through the use of this solution, IT organization will determine how many users a particular server farm can adequately support given a predefined performance threshold before going live. In addition, the CitraTest VU scripts can also be used with CitraTest APM for production monitoring. For more product specific details, please refer to http://www.tevron.com/citratest-vu.asp.

About CitraTest®
CitraTest® is designed to meet the General Automation needs of any IT organization. These needs would include Automated Software Testing or simply automating manual tests that need to be executed on a regular basis. CitraTest supports every enterprise application. For more product specific details, please refer to http://www.tevron.com/citratest.asp.

About Tevron®
Tevron is a global organization that was founded in 2001 and was the first to offer a full suite of testing solutions for both Citrix and Terminal Services hosted applications. These solutions include load testing & capacity planning, application performance management, and general automation. Through our all encompassing customer-centric vision and advanced technology, our APM & Testing Solutions allow the unique flexibility of supporting every application across the enterprise with one methodology delivering the ability to test, monitor, enforce SLA's, and optimize performance with confidence and ease. Tevron's vast and diverse range of customers (http://www.tevron.com/customers.asp) are global leaders and include companies such as Citrix Systems, Citigroup, Alcon, Siemens, T-Systems, Home Depot, Harley Davidson and numerous others.
