Tevron, LLC Joins Premier Level of Citrix Business Alliance

Tevron™, LLC introduces CitraTest® and CitraTest® NI, the first testing solutions designed specifically for users of Citrix application server computing solutions providing a new standard of quality and accuracy, that saves money, time and resources.

Chelmsford, Massachusetts, July 31, 2001 – Tevron, LLC, a company offering unique and highly accurate testing solutions, today announced it has advanced to the Premier level of membership in the Citrix Systems, Inc. (Nasdaq: CTXS) Citrix Business Alliance™ (CBA). As a CBA premier member, Tevron, LLC will now advance faster with a more sophisticated level of joint marketing support, and will work with Citrix to provide enhanced automated application testing for server computing solutions to customers.

"As a CBA premier member, Tevron, LLC will provide revolutionary new automated testing solutions to all Citrix enterprise users and Citrix program member customers," said Jay Labadini, President and CEO of Tevron, LLC. "Through CitraTest and CitraTest NI, Tevron offers unique testing capabilities using a single licensing method that supports virtually all hardware platforms, including thin client machines, all browsers, all operating systems and all development environments."

"The addition of Tevron, LLC to the CBA strengthens our strategy of offering customers the widest possible array of technologies that support a server-based computing environment," said Garry Olah, Director, Corporate Development, Partner Programs for Citrix. "Working together, we hope to meet customer demand for the CitraTest and CitraTest NI products that can further enhance our offerings."

-more-

CitraTest is a revolutionary new automated testing solution designed specifically for Citrix enterprise Users and Citrix program member customers. Because CitraTest is virtually non-invasive and CitraTest NI is a totally non-invasive testing solution, users are assured quality and accuracy, thereby saving money, time and resources and ensuring their ability to be competitive. CitraTest is designed specifically for testing Citrix hosted applications and is the world's only software test automation solution for conducting performance benchmarking, compatibility, functional and latency testing for all Windows development environments and all browsers through one single license. CitraTest NI, supplemented with a proprietary external appliance, is the only solution for those testing efforts where a Citrix based application is running on a thin client machine, a non-IBM compatible PC, and/or a non-Windows based operating system. CitraTest NI is a powerful and completely non-invasive software test automation solution.

Tevron Labs is a scalable multiple test station lab environment fully equipped with the Tevron, LLC suite of software test automation solutions and the latest connectivity technologies for performance benchmarking, load testing, regression, functional and latency tests.
