Tevron® Introduces SNMP Support for its Flagship APM Solutions.

Tevron® Introduces SNMP Support for its Flagship APM Solutions.

Nashua, New Hampshire, March 17, 2004 – Tevron® today announced Simple Network

Management Protocol (SNMP) support for its flagship APM solutions, CitraTest® and AcuTest®.

Through the deployment of Tevron's APM solutions, every application across the enterprise

can be accurately measured and actively monitored allowing for the enforcement of all

SLAs. By providing a direct SNMP link to SNMP compliant management systems, Tevron's

flexible APM solutions seamlessly transition into all "current" enterprise management frameworks

that are in place in an organization. Some of these mainstream frameworks include HP OpenView,

IBM Tivoli, CA Unicenter, Micromuse Netcool, and BMC Patrol. Now the missing piece to the

ETE puzzle can be deployed by every enterprise without changing the current internal process.

   "Because Tevron's APM solutions are completely independent of the application

they are monitoring, for the first time, every application across the enterprise can be monitored

with one cost effective solution. Every organization has numerous applications they need to

monitor and our APM solutions can monitor them all. No other vendor offers such vast and all

encompassing support. The days in which organizations have to pay BTO vendors a licensing fee

for each application and each protocol they need to monitor are over potentially resulting in the

savings of millions of dollars in licensing and maintenance fees. Through the use of Tevron's APM

solutions, organizations now have <u>one</u> all encompassing solution with <u>one</u> licensing fee that can

monitor any and every application across the enterprise. This includes all legacy applications, client server applications, web applications, Citrix or Terminal Server hosted applications, terminal emulation...every application. With the introduction of SNMP support, Tevron's goal to provide its customers with seamless solutions that <u>fit</u> into their current process is being achieved. This flexibility is a must to meet the demanding needs of today's global enterprises", explains Jay Labadini, Vice President of Business Development at Tevron.

To learn how CitraTest® and AcuTest® can assist you with your APM requirements, call 1.702.518.7435 or visit www.tevron.com.

ABOUT TEVRON, LLC

Tevron, LLC is a pioneer in a new class of all encompassing APM solutions. Tevron's mission is to provide automated monitoring solutions that support every application across the enterprise while seamlessly integrating into current management methodologies. Tevron's technology has completed the complex APM puzzle.
