

Trim-Tack® Cuff Sealer From MARKEL

The Fast, Easy way to Achieve Additional Contaminant Protection in Class 100 Environments!

- Trim-Tack Cuff Sealer quickly and effectively seals the area between glove and garment with a disposable sheet of adhesive film to help prevent particle migration and the infiltration of chemical contaminants.
- The flexibility of the 1.5 mil poly film allows a comfortably snug fit on all size arms.
- 60 sheet pad with adhesive backed base to secure Cuff-Sealer to a convenient surface
- Alternating color tabs on both ends minimize accidental peeling of multiple sheets.
- Standard size: 13" x 4.25" (330 x 108 mm)
Custom sizes are available.
