

Trim-Tack® Roll Mop From MARKEL

Removes Contaminating Particles From Floors, Walls, Ceilings, Tabletops & Many Other Surfaces

- Trim-Tack Roll Mop is as simple to use as a common paint roller. Each replaceable cartridge consists of a roll of adhesive coated substrate perforated into removable sheets similar to those of a Trim-Tack adhesive floor mat.
- Simply roll the area to be cleaned as if you were applying paint.
- When the roll becomes too soiled to pick up any more contaminants, simply peel off the top layer at perforations to expose a clean layer.

AVAILABLE IN TWO ADHESIVE MATERIALS

- **FOAM ROLLER**
Made from a poly film/foam laminate which conforms to slightly irregular surfaces.
- **FILM ROLLER**
LDPE film on a plastic, non-contaminating core.
- Roll Mop handles (sold separately) are available in 9" and 18" sizes.
- Adjustable (4' to 8') extension poles are available.
